— Dates & Times —
Saturday, July 15  9:00 am – 1:00 pm
Sunday, July 16   1:00 pm – 5:00 pm

Location: Community Gardens throughout Morris County
Cost: FREE
The days are long, the sun is getting hot, and things are well underway in our gardens. We tend the plants we bought at the plant sale, and check for the first peas in the vegetable garden. The “Farm to Table” movement is winning devotees among foodies, environmentalists, and home gardeners alike. Join the crowd with the fun new series here at the Arboretum titled “Grow your Groceries,” which combines growing tips with recipes.

For more inspiration, be sure to check out the “Open Gates” program July 15 and 16. Roughly a dozen community gardens around Morris County are participating and open to the public for the second year of this popular event. Be amazed by the variety of familiar and exotic vegetables and herbs being grown, and find out how motivating it is to cultivate a plot alongside a dedicated band of fellow gardeners of all ages. Community gardens are a great place to make new friends, and share tips and produce. See the website for details about participating gardens: arboretumfriends.org/events.

Continuing the edible theme, we have a program by Constance Kirker in September on “Edible Flowers, a Global History.” Who knew that flowers featured in cuisines around the world date back many centuries! The following week is an inspirational talk by noted garden photographer and speaker Karen Bussolini titled “Herb Liberation.” Karen will show us how to use herbs throughout the landscape, and to exploit their beneficial roles in attracting pollinators.

Speaking of flowers, Marge Hulstrunk is back to present three flower arranging workshops in July and August. Marge is a professional floral designer and long-time volunteer coordinator at the Arboretum (now retired), whose creative talents are legendary among her many admirers at the Arboretum. Take one or more of these classes and then become a volunteer flower arranger at the Arboretum, where your creations will be showcased in the lobby or at special events. Marge’s classes fill up fast, so don’t delay.

Last but definitely not least, the Friends recognized some long-time staff and volunteers at the Arbor Day Awards ceremony April 10. Steve and Sue George joined the Friends Board in 2004. They served as Bus Trip Co-Chairs for 10 years, and helped every year with the Blackburn Tea, the Plant Sale, the Gingerbread event, and served on the Finance Committee. A Serviceberry (Amelanchier x grandiflora ‘Autumn Brilliance’) was planted in their honor in the Lindner Garden. Also honored was Lesley Parness, recently retired Superintendent of Horticulture Education, for her many years of dedicated service and leadership at the Arboretum. A pink Korean Dogwood (Cornus kousa ‘Miss Satomi’) was planted next to the patio at the Lindner Garden. Congratulations and thanks to the Georges and to Lesley. We sincerely appreciate all that they have done for the Friends.

Judy Snow, President Friends of The Frelinghuysen Arboretum

Herb Liberation by Karen Bussolini
Herbs are such beautiful plants, useful in the garden as well as kitchen, so why sequester them in the herb garden? Use herbs throughout the landscape, in flower gardens, in vegetable gardens (to attract pollinators and other beneficial insects), as ground covers, specimens, in containers. Liberate them from their traditional roles, use your imagination – and bring them into your daily life. Karen Bussolini returns for a lively lecture on the topic of all things herb. Karen has been a gardener all her life and specializes in garden photography, writing, speaking and eco-friendly garden coaching/design. She is a NOFA (Northeast Organic Farmers Association) Accredited Organic Land Care Professional. Her garden has been featured in many publications.
