

2021 Gardening Education Series

Wednesdays
February 3 - May 12
6:30 - 8:30 pm

Would you like to better understand the science behind how things grow and improve your gardening knowledge? Learn more through a series of online lectures given by the experts from Rutgers Cooperative Extension. Topics include botany, soils, entomology, plant pathology, composting, vegetable and fruit gardening, trees and shrubs, pruning and lawn care. The program fee is \$200 for this 17 - week Series.
