The Friends of The Frelinghuysen Arboretum

Gingerbread Wonderland 2016 – Celebrating 25 Years of Wonder!

In 1991, staff and Board Members of The Friends of The Frelinghuysen Arboretum thought that having a display of Gingerbread Houses would bring guests to our lovely gardens at a usually quiet time of year. They were right! That first year, there were under a dozen exhibits and a few hundred guests. Recent shows have featured over 200 displays and attracted over 13,000 guests. This year, we celebrate a quarter century of gingerbread with a personality from Friday, December 2 through Sunday, December 11.

Please be a part of this Morris County holiday tradition by entering and then visiting the show. Complete rules are available at our website along with a link to lots of images from past shows. There will be a special 25th Anniversary Ribbon awarded to each entrant and a Green Ribbon for those entries that have an environmental theme. On Saturday, October 29, Chef Cynthia Triolo teaches “Gingerbread Tips & Techniques.” It’s a great way for beginners to get started and it’s FREE, but please do register.

The magic of Gingerbread is hard to describe. “Gingerbreads” are not only houses, but also landmarks, trains, planes, and animals and include every theme from favorite show tunes to commercials, from family vacations to politics. It’s a collaborative thing of joy that celebrates our diversity and our commonality. Start your holiday by sharing your talents, points of view and memories at the 2016 Gingerbread Wonderland!

Members Night at the Gingerbread

Members are invited to attend the 25th Annual Gingerbread Wonderland, free of charge on Friday, December 2 from 5:30pm – 7:30pm. Just show your Membership card at the Admission Desk and your hand will be stamped. After viewing the exhibit, please come to the lower level for complimentary refreshments! Please register for this evening event online, or by mail.

notes from the board

“The only constant is change,” goes the familiar adage. Change has come to the Board of the Friends as well, as I start my term as President of the Board. We said farewell to longtime Board members and supporters Sue and Ollie Acheson, and wish them well in their new home in North Carolina. We welcomed new Board members Pam Venanzi of Randolph (Secretary) and Mary Brennan of Morristown (Hospitality). We also welcome new staff member and volunteer coordinator Beth Feldman (see following article) who takes the position vacated when Marge Hulstrunk retired in January. Beth has lots of new ideas and is looking for new talent to help with the many fun activities planned for the upcoming season.

These changes were made official at the Annual Meeting in June, when the Board elected its officers for the upcoming term. The Board also gave two important awards at that meeting. The first recognized the Benjamin Blackburn Scholarship winners. Scholarship Chair Betsy Martone introduced the two recipients, each awarded a \$1,000 scholarship for their horticulture studies at the County College of Morris. Nisha Khanna and Douglas DeAndrea were the two winners, and each spoke enthusiastically of their plans to work in the landscape and horticulture industry. Next came the presentation of the Annual Award, which recognizes someone from the area who has made significant contributions to the horticultural field at large. This year’s winner was Marta McDowell. Marta is an internationally recognized horticultural writer, with books on the gardens of Emily Dickinson, Beatrix Potter, and her most recent “All the Presidents’ Gardens.” Marta lives in Chatham and has been a long-time member and volunteer at the Arboretum. The meeting ended with a fascinating presentation by another noted author and landscape designer, Thomas Rainer, on “The New American Cottage Garden.”

Jumping quickly to the fall, there are many interesting speakers, cooking programs, art displays in the gallery, and a wonderful event in October especially for children. This highlights scary plants for Halloween, with lots of crafts and foods appropriate for this favorite holiday. See the story on “Scary Plants, Scaredy Pants” scheduled for October 22nd.

Finally, one thing that hasn’t changed is the ever-popular Gingerbread Wonderland event, which is celebrating its 25th anniversary this year. What a great way to get in the holiday mood and shop for some unique holiday gifts and stocking-stuffers at the Craft Show. Bring family and friends to see it all. This year, why not join in the fun and enter your own gingerbread creation? There’s a free program to learn how with tips from a professional baker on Saturday October 29. Maybe you’ll get lucky and win one of the prizes!

Meet our new Volunteer Coordinator – Beth Feldman

Beth Feldman has joined the Horticultural Education staff of the Morris County Park Commission as its new Volunteer Coordinator.

A native of the Garden State and a resident of Morris County for the

past 25 years, Beth has served on a number of Boards and volunteered for numerous regional organizations. She graduated from the University of Delaware with a BA in Geography, with a focus in Environmental Studies. Many of you will recognize Beth from the Haggerty Education Center’s Front Desk, where she has been the Weekend Receptionist since 2014.

“I look forward to the opportunity to meet everyone who has the time, energy and desire to help make the experiences we offer to the public at The Frelinghuysen Arboretum as educational, productive and enjoyable as possible”. If you have an interest in sharing your expertise at a specific event, for example – The Gingerbread Wonderland in early December, we welcome your help!” Beth is busy planning a number of Volunteer recognition events and working on new computer applications to make volunteering easier. If you have volunteered in the past, you will be hearing from Beth in 2017!

Movie Night:
Symphony of the Soil

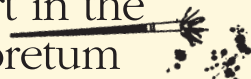

Drawing from ancient knowledge and cutting edge science, *Symphony of the Soil* is an artistic exploration of that miraculous substance: soil. By understanding the elaborate relationships and mutuality between soil, water, the atmosphere, plants and animals, we come to appreciate the complex and dynamic nature of this precious resource. The film also examines our human relationship with soil, the use and misuse of soil in agriculture, deforestation and development, and the latest scientific research on soil's key role in ameliorating the most challenging environmental issues of our time. Filmed on four continents, featuring esteemed scientists and working farmers and ranchers, *Symphony of the Soil* is an intriguing presentation that highlights possibilities of healthy soil creating healthy plants creating healthy humans living on a healthy planet.
